

Can You Tell If Someone Has Had Too Much To Drink?

STOP ALCOHOL POISONING

Never leave an intoxicated person alone

Stay sober to take care of your friends

Get them medical help

CALL 911 if the person shows any of the following symptoms:

- Unconscious or semiconscious
- Breathing less than 10 breaths per minute or irregular breathing—check every 2 minutes
- Cold, clammy, pale or bluish skin
- Cannot be awakened by pinching, prodding or shouting,
- Vomiting without waking up
