DISTRICT PLAN

The Regional Plan of Theta Xi was formally adopted by the Fraternity at the 75th Anniversary Convention at Troy, NY in September, 1939. The first regional conferences were held in 1939-40.

In 2005, the Grand Lodge reorganized the regional plan and assigned each chapter and colony to one of eight districts. The district plan is intended to promote interaction and cooperation between undergraduates and alumni leaders from nearby chapters and colonies. The District Plan, by design, has been kept as flexible as possible so that frequent changes can be made to meet changing conditions. The details of the plan, therefore, have never been made a part of the Constitution and By-Laws. The Grand Lodge, under the Constitution, has the power to define and regulate districts/regions, and has, from time to time, revised regional boundaries and adopted regulations and guidelines governing them. The Grand Lodge is also authorized by the Constitution to appoint Regional and/or District Directors, as needed, to carry out the work of the Fraternity.
