THE QUEST FOR THETA XI

The quest for Theta Xi is a quest for brotherhood. It is the same search for fellowship and brotherly love which inspired the founding of our Fraternity in 1864. Our brotherhood is sacred to every member of Theta Xi, and those who pursue their quest for Theta Xi with vigor, determination, and honest effort have found the rewards many times greater than the effort put into their search.

Your quest for brotherhood is an ever-continuing process. Your years in Theta Xi will add meaning and direction to this quest. Through exploration and appreciation of our beloved Fraternity and the brotherhood it fosters, members have developed individual skills and values that serve them for a lifetime. The quest for Theta Xi begins...
